

Thank you for your continuous support to LEAP. During the past one year, LEAP has grown by leaps and bounds. Table below shows the increase in reach that LEAP has achieved thanks to all round support from College Partners, Industry Associates, Knowledge Partners and volunteers.

As of	States	Colleges	Faculty	Students	Projects
Oct 2024	TN, Kerala, Karnataka, Maharashtra	14	294	3155	133
Oct 2023	TN, Kerala	9	106	392	76

First Startup Incubatee from LEAP

The first incubatee to result from a LEAP project has been formally incubated by the TBI at GEC Idukki. It is especially gratifying that this first was achieved by students from a remote, mountain region of Kerala. Until 2 years ago, these students did not have any idea that they could create a product and start their own company. More details are available in the [link](#).

Inception and Incubation

MIND incubated under the Technology Business Incubator (TBI) at GECl on March 26, 2024. The agreement was formally signed by the Principal Dr. Suresh K alongside Prof. Asish Shaji Varghese (TBI coordinator) and Dr. Sunil K. S. guide and faculty advisor of MIND.

Meet the Team

The team comprises five talented final-year students from the Computer Science and Engineering Department of GECl

- Adithyan P : Founder and CEO
- Vaishnav Vijayan : Co-Founder, COO
- Hashim Sharaf C P : Co-Founder, CMO
- Jerin Paul : Co-Founder, CIO
- Abhiram N S : Co-Founder, CTO

Fellowships and Entrepreneur in Residence (EIR)

17 high performing LP201 students from Prince Venkateswara and Prince DK Vasudevan Colleges have received IITM Pravartak Fellowships. 2 students from GEC Idukki have EIR assistance as part of Pravartak's Startup Schemes. These have encouraged the students to broaden their horizon of exposure and aspire for larger goals once they complete college. You can learn more about Pravartak from their [website](#),

Students' availability for Internships

In the next couple of months we expect 228 high performing LEAP students to become available for Internships. The branch-wise break-up is provided below. If you have any requirements coming up, kindly share with LEAP and we can share available profiles.

Branch	Students
CS & IT	116
AI&DS	34
Bio Medical	7
Cyber Security	15
ECE	28
EEE	11
Mechanical	7
MCA	10
Total	228

Third and Fourth year – Mini Project, Major Projects, Internships

We invite you to suggest possible projects, internships in AY2024-25 so that we can use it for planning together with college/students.

The past year has seen LEAP expanding and creating positive outcomes. Thank you once again and looking forward to a positive year ahead.
