## Job opening Manager, LEAP Project IIT Madras Incubation Cell

**About LEAP:** [LEAP](#) in the IIT-Madras Incubation Cell provides industry-oriented Project Based Learning to engineering colleges by focussed programs from 1<sup>st</sup> to 4<sup>th</sup> year of B Tech. LEAP is founded by IIT professors and industry veterans, with seed funding from the Maker Bhavan Foundation, USA.

LEAP fosters team spirit

In 1<sup>st</sup> year, LEAP students work in teams to improve existing products. In 2<sup>nd</sup> year, teams design and build a working prototype to solve a problem of society. In the 3<sup>rd</sup> and 4<sup>th</sup> years, students explore specific domains in greater depth through mini-projects, internships and major projects. In all LEAP programmes, students are guided by their college faculty with help from LEAP experts.

**Job description:** Project Management, LEAP planning and tracking; Sales and Marketing to colleges; liaising with industry; helping to achieve LEAP targets.

### Qualifications and experience:

- Graduation Or MBA Or BTech/MTech or equivalent
- 5 years experience managing projects using collaborative platforms, including multi-team coordination and client interfacing
- Good written and verbal communications
- Academic experience is an added advantage

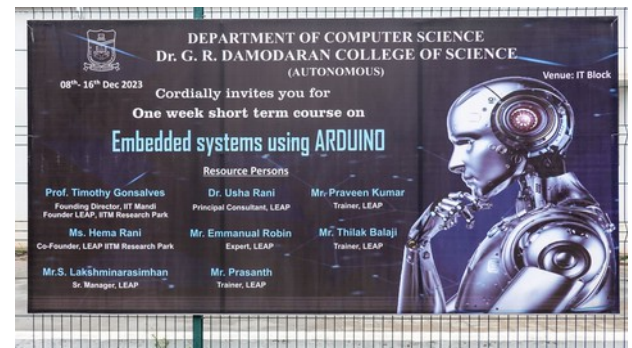

**Salary:** Rs. 40,000-75,000/- per month, initially for 1 year, extendable based on performance and need.

**To Apply:** Email your biodata to [leap\\_info@respark.iitm.ac.in](mailto:leap_info@respark.iitm.ac.in)
